About Me

As a software engineer with a passion for emerging technologies, I am excited about the potential of Hedera Hashgraph to revolutionize the way I approach decentralized systems. With interest in full stack development and a keen eye for UI/UX design, I am confident in my ability to contribute to the development of innovative and user-friendly applications. In this resume, I will showcase my skills and experience in technical architecture programming languages, and application development, as well as my dedication to staying at the forefront of the industry.

Education

Excel HIGHER SECONDARY SCHOOL
2008-2020 10th - 87% 12th - 87%
SRI ESHWAR COLLEGE OF ENGINEERING
2021-2025 | CGPA - 7.6

PROJECTS

Vaccum cleaner with java

- It is developed with java and mysql
- It is used in apache netbeans-15 and Oracle Mysql
- The project describes that controlling system in smart robotic cleaner with smart phone

Sign Language Detector

- It is developed for detecting the sign language and it is converted to audio and text format
